

Montessori Teacher Assistant Preparation Course

The Montessori Teacher Assistant plays a very important role in the overall success of the Montessori environment. They provide support to the lead teacher, and interact in a gentle manner with the children, all in service towards a peaceful, harmonious classroom. Preparation for this role requires education and dedication to the Montessori philosophy.

The Teacher Assistant Course covers the basics of the Montessori approach. Participants in this course have increased understanding of the Montessori approach and have also strengthened their effectiveness in working with children. For others, the course has been a stepping-stone in deciding to pursue full Montessori teacher credential. Classes meet for a full day on each of the four days. All attendees will receive a certificate of completion after full participation in the course.

Prepare yourself to meet the children's needs with a course that consists of an in-depth view of Maria Montessori's philosophy, as well as techniques of everyday work.

Day One:

- The "Whole Child" Approach
- The "Prepared Environment"
- The Montessori Materials
